Arthur D. Eisenberg  
Associate Research Director  
The Council for Tobacco Research - USA, Inc.  
900 Third Avenue  
New York, NY 10022

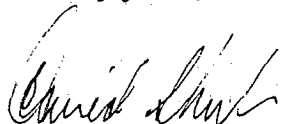

Dear Dr. Eisenberg:

On behalf of the 1991 Albany Conference Organizing Committee I would like to thank you and Harman McAllister for your company's generous support of \$1000 for the conference "Molecular and Cellular Responses to Oxygen" which was held on September 12-15, 1991. For your own review, I am enclosing a copy of the final program, a list of participants, and a book of abstracts.

In compliance with your letter, your particular contribution was used to cover a portion of the travel expenses incurred by invited speakers. I am sorry that your check arrived after the printing of the program, but an announcement of your support was made at the beginning of the first session and your name applied by label to the program.

We certainly hope that you will consider offering your support again next year for the 1992 Albany Conference, and that possibly a representative from The Council would attend. We will inform you as soon as the topic and list of speakers is confirmed.

Sincerely yours,

David A. Shub, Ph.D.  
Professor, Department of Biological Sciences  
Director, Center for Molecular Genetics
